Dear Customer,

For the past five years our goal has remained the same - to develop and support high performance computer products.

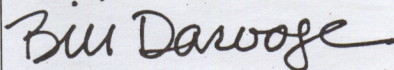

We offer a large selection of graphics and entertainment programs for Apple,

Macintosh, IBM, Commodore, Amiga and Atari personal computers. A handy reference chart located in the center of this issue has been provided allowing you to view our complete product list along with other information that can help in making a program selection.

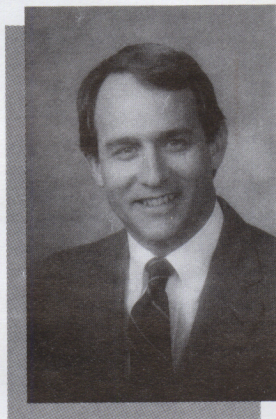

If you have not purchased a Baudville program before, we urge you to give us a try. We know that you will be pleased.

All of our products are guaranteed. If for any reason you are not satisfied, return the product within 14 days and your money will be refunded. No questions asked.

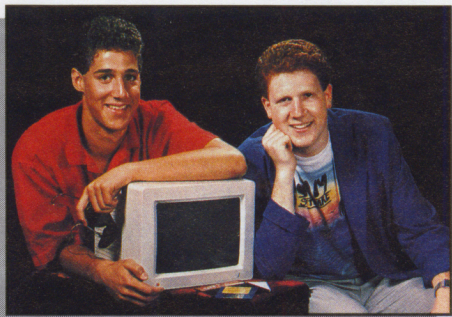

Sincerely,

Bill Darooge
President

P.S. We are constantly striving to improve our products and to provide better customer support. That's why we appreciate hearing from you, almost as much as receiving your order!

Hacker Jack: The Spirit Lives On.

Jason Rubin and Andy Gavin caught the Hacker Jack spirit the day they booted their first

Apples. Developing Ski Crazyed, and with Dream Zone soon to follow, was only a matter of time.

Born in a snowstorm, it's only natural that Jason Rubin would grow up loving to ski. The madcap creator of Ski Crazyed's graphics, Rubin is a student at Walt Whitman HS in Bethesda, MD.

Starting with a II+, Andy Gavin has been programming since 1981 - and he's already achieved his first goal: publishing a program at the same age (or younger) as his hero, Will Harvey. Gavin attends Langley HS in McLean, VA.

Who is Hacker Jack? Someone with an idea, a machine, a dream. Who knows? Maybe someone like you. If you've developed a program you'd like to see published, write or call Baudville, 5380 52nd Street SE, Grand Rapids, Michigan 49508, (616) 698-0888.

NEW!

"You should have some fun with this one!"

Computer Entertainer
December 1987

Ski Crazy

All the thrills and none of the chills!

You've fought your way through twelve grueling downhill slopes. Two devilish slalom courses. And more moguls, ice hazards, jumps, gates and spills than you can shake a joystick at.

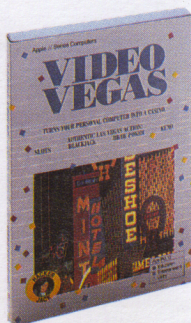

Now you face the fifteenth and final slope: the dreaded "Ooh La La." It's all ...or nothing. Heart pounding, sweat on your forehead, butterflies swarming underneath your sweater, you push off! Ski Crazy brings mountain madness to your monitor. All the excitement, hair-raising stunts, and fun.

Plus when you've beaten the best on the Ooh La La, you can make a real beast with Ski Crazy's slope creator.

"Your software 'Video Vegas' is very realistic, my husband says the only thing lacking is a cute gal in a short skirt serving drinks.

W. Moore
Salem, Oregon

Video Vegas

Authentic casino action!

Take a break and go to Vegas. It's the four-games-in-one package that looks and plays exactly like the video games in Las Vegas casinos.

Features Blackjack with built in card counting, Draw Poker, Keno and Slots. Deals cards and settles bets in casino fashion. Video Vegas entertains the beginner and challenges the pro!

Rainy Day Games

Hours of enjoyment for the young and the young at heart!

The next time your child has "nothing to do" introduce a lovable new playmate, Ted Bear. With Ted Bear your child can play Concentration, Old Maid, and Go Fish - any time rain or shine.

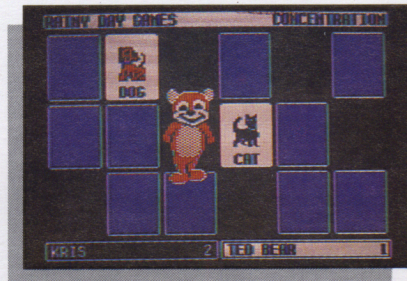

These classic card games help your child develop the ability to concentrate and use strategy. And the package adds a new dimension : the computer. This electronic friend plays fair and shows no favoritism, and Ted Bear's acceptance of losing sets a good example as well.

Colorful, action-oriented graphics make words interesting and reinforce their meaning, thus encouraging your child's desire to read.

"Rainy Day Games is a marvelous introduction to the computer for the four or five year old!"

Guitar Wizard

It's Hi-tech hot licks!

"Most music software is extremely keyboard-oriented, probably because it's easier for beginning students to map out augmented 13th chords on a keyboard than on, say, a guitar.

Unless you've got Guitar Wizard, that is. It's astonishingly complete, full of scale runs and unusual chord voicings you seldom see in guitar books. Guitar Wizard has four basic areas of study. Chord Wizard helps you locate chords at different positions on the neck.

Scale Wizard displays fingerings, intervals, and notes for a whole slew of scales. Fretboard Wizard teaches the rudiments of fretboard harmony and open tunings. And for advanced axmen and axwomen, Improvisation Wizard suggests scales for your next blistering solo.

So, whether you're a novice picker or a seasoned player, Guitar Wizard is almost as educational as having Yngwie, Eddie, and Chet Atkins as next-door neighbors."

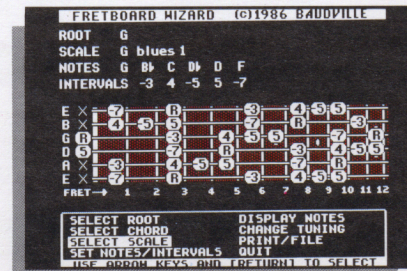

A+ MAGAZINE - December, 1987

"I defy any would-be Yngwie Malmsteen or Eddie Van Halen to come up with a guitar chord or scale that isn't on the Guitar Wizard disk. It's astonishingly complete, full of scale runs and unusual chord voicings you seldom see in guitar books."

A+ Magazine - December 1987

Award Maker PLUS

If it's worth honoring,
it's worth remembering-with
an award they'll keep.

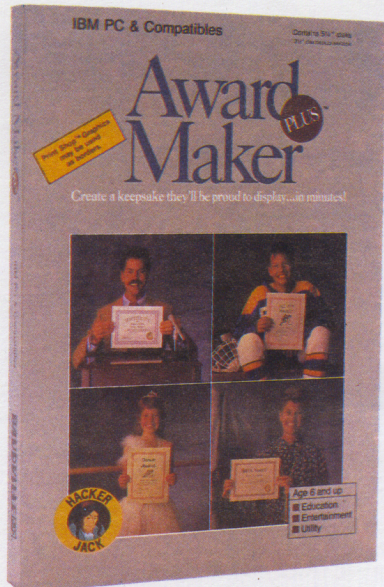

Award Maker Plus

Honor and thank people with more than just words - give them an award they'll keep.

With Award Maker Plus you create professional quality certificates with colored, detailed borders, specialized graphics, and personalized messages ready for framing.

Award Maker Plus is a software tool that lets you print awards, certificates, licenses, coupons, diplomas or other documents of your own design. The program will print hundreds of pre-designed Award Styles, allowing you to enter text, select the border style and color, and in some styles even enter your own Hi-res pictures. Also, Print Shop™ graphics may be used as borders.

Program comes complete with professional quality border designs, text fonts, and graphic art. Baudville also supplies pin-feed French Parchment Paper, sold separately, to make your next award a standout!

"I recently received my copy of Award Maker Plus. I am especially enthralled with the quality of your text fonts. Your text quality is much, much better than the text generated by Certificate Maker by Springboard or by the text from Multiscribe by Styleware. Again thanks for producing such a quality program."

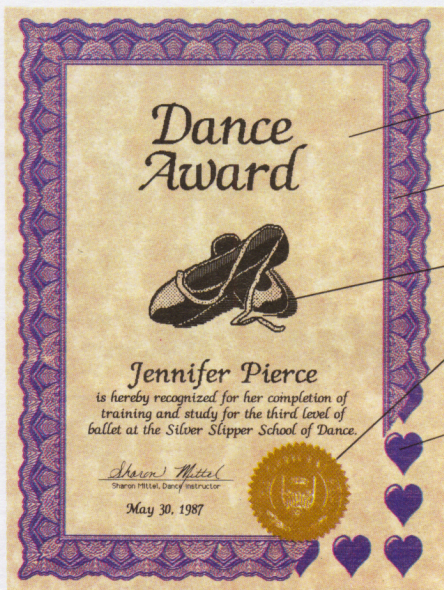

Bob Wolff
Walnut Creek, California

"I would like to say that the border graphics are the best I have ever seen. The routine that causes the printer to go back over the text the second time so the text is darker than the border is a great idea. I think that "Award Maker Plus" is far superior to the competitive products. Thank you, and keep the good software coming!"

Ron Kraus
Coral Springs, Florida

Award Maker Plus Includes:

- Nearly 300 different awards and certificate styles to choose from. Ideas for sports, school, home, business, serious and fun events.
 - French Parchment paper, matching envelopes available thru Baudville. (See Accessories listed on the INSERT.)
 - A variety of intricately designed black and white, and colored borders to make each award distinctive.
 - Insert your own graphics. (Optional)
 - Free gold-embossed press-on seals to add an air of authenticity to your creations.
 - Print Shop™ graphics may also be used as borders.
- The ability to create name files so you can print out awards for an entire group.
- Easy-to-follow instructions.

Earn Your Wings!

Estes Educational Software Programs

Ever since the mythological Icarus's wings melted when he flew too near the sun, man has been determined to fly. Now Estes has come out with three software programs employing plain English and magnificent graphics to teach the basics of flight. These programs help children discover the thrill of space flight by colorfully demonstrating for them the physical principles of rocketry. Students who now think "lift" is a wedge in a shoe and a "drag" means "boring" will end up as mini-engineers who have built their own computer rockets. Teachers can use the software to supplement classroom work -- a teacher's guide comes with each program, and students can interact with it at home to clarify what they've learned.

Graphics created with Blazing Paddles.

Animation created with Take 1. Both by Baudville.

Each of the following programs: PHYSICS: Of Model Rocketry; FLIGHT: Aerodynamics of Model Rocketry; and IN SEARCH OF SPACE: Introduction to Model Rocketry, stands on its own: any two or all three dovetail together.

SPECIAL OFFERS

BLAZING PADDLES-APPLE OWNERS:

816/PAINT is available to you for only **\$35.00 plus \$3.00 for shipping and handling**. Now you can work with Single and Double Hi-Res files. Use the file convert to upgrade your current Single Hi-Res pictures to Double Hi-Res. Take advantage of new drawing tools, edit brushes and patterns, and much more. Simply send in \$35.00 plus \$3.00 for shipping and handling.

(NOTE: You must be a registered owner.)

BOUGHT CERTIFICATE MAKER™ BY MISTAKE?

Now you can own **AWARD MAKER PLUS** and print the professional looking certificates you've always wanted. Send us your Certificate Maker disk with **\$17.00**, and your **AWARD MAKER PLUS** will follow promptly.

TIDBITS

Have you ever wished to see a particular **BAUDVILLE** program in action before you bought it? It's very easy. Call or write to us with the name and address of your favorite local computer store. We will send a copy of the selected program to the store for you to personally preview.

A hearty thank-you to all our **816/PAINT** owners with **Ile's** and **Ile's**. Your patience was exemplary! For all of you who have yet to purchase your copy Yes, indeed! -The program does contain both a 5 1/4 and a 3 1/2 inch disk.

CUSTOMER SATISFACTION

" I am ABSOLUTELY DELIGHTED, and I'd like to tell you why. The other night I saw your program and read that it would run on a monochrome, Hercules compatible system (monochrome screen), and I took it home, put it on the hard drive and LOVE IT!"

*I am a teacher, and want to be on your mailing list for updates and other disks which will be usable for the **Award Maker Plus** program.*

Thank you for making such a nice program. I saw it on the shelf of the store, picked it up and read the package!!! It was that simple..."

Thomas H. Bbaus
Coatesville, PA

*" I am writing to congratulate you on giving the Apple world such a fine program, **Award Maker Plus**, I consider it to be outstanding."*

Major Lon Kinley
Commanding Officer - Salvation Army
Beckley, WV

*" Last Friday night I decided to try **Rainy Day Games** out for several minutes with a cerebral palsy patient, and 2 hours later we were still playing Concentration and Go Fish."*

Eric P. Nagler
Children's Hospital at Stanford
Santa Clara, CA

*" I would like to complement you on your fine work on **Video Vegas**. Not only are the graphics great but the games play just like the machines in the casinos."*

Francis J. Hunt
Las Vegas, NV

*" I purchased your **Video Vegas** for my computer and I have been very happy with it. But more important than the product itself, I am 100% happy with your company!"*

Keep up the EXCELLENT attention to detail and customer care and I am sure that people will beat a path to your door."

Marilyn D. Snaring
Hoodsport, WA

Award Maker Plus Accessories

Go first Class With French Parchment Paper

When we couldn't find a quality pin-feed stock suitable for color printing, we decided to manufacture our own. The highest quality 22# parchment stock is roll milled in Michigan, and cut down to continuous form 9 1/2" x 11", which tears down to leave sharp, clean-edged standard 8 1/2 x 11" sheets.

We also offer a nice soft blue classic flat-laid finish continuous form paper in 22# stock.

So when the occasion calls for an official, dignified, historical, prestigious, or antique look - it's time for that special Lickety-Split paper you keep tucked away in a safe place.

PRODUCT SUPPORT AND UPDATES

BY FAYE VANDEN BERGE

Always remember to send in your warranty card. Product support is available by phone or mail to any registered owner. To locate your version number watch the top of the screen as your program boots.

CURRENT UPDATES

BLAZING PADDLES-APPLE: Version 04431, released March 1985. Color printing routines have been added for color printers; including the ImageWriter II, C.itech 8510SC, Apple Scribe, Epson JX80, Okimate 20, IDS Prism.

BLAZING PADDLES-C64: Version 04412, released November, 1986. Color printing routine has been added for the Okimate 10. This version also includes a routine for automatically loading picture files into your own programs.

TAKE 1 DELUXE-APPLE: Version 06461, released December 1986. A Moviedisk Maker has been added for creating your own self-booting movie disks. Animation Library #1, Actors and Actions, has been added to side 2.

These updates may be obtained by sending in your original disk and \$12.50. Updates for both your original and back-up disk are available by sending \$17.50.

TAKE 1 PROGRAMMER'S TOOLKIT-APPLE: Version 10601, released March, 1986. TAKE 1 projector fades are now accessible from your own program, copy protection can be installed on your moviedisks, and additional Ampersand commands can be linked to the TOOLKIT. Expanded user guide is included.

The **PROGRAMMER'S TOOLKIT** update may be obtained for \$17.50.

REVISIONS:

NOTE: The following revisions are free to registered owners who have experienced these problems. Simply send in your original disk with a note explaining that you would like a replacement. (Free revisions are only available within 90 days of purchase.)

PRINCE: Version 15541, released October 1986. Corrections have been made in the Nec 8023, Data Products, and Epson FX85 printing routines.

VIDEO VEGAS-APPLE: Version 12511, released November 1986. The 10 of hearts now has 10 hearts instead of nine.

VIDEO VEGAS-C64: Version 12612, released December 1986. A royal flush now pays out the correct amount. **NOTE:** Atari users, a special disk is available to correct problems with 810 drives or single density drives.

VIDEO VEGAS-AMIGA: Version 12613, released November 1986. Minor problems in the Blackjack section have been corrected and audio performance has been enhanced. Random card dealing bugs have also been corrected.

AWARD MAKER PLUS-APPLE: Latest Version 23631, released May, 1987. Printer routines have been corrected for NEC 8023/8025; C.itech 8510SC; Okidata 82, 83, 84, 92, 93; IDS; and Prism printers. Data for award styles 14, 148 - 154, 198 - 202, and 224 - 230 have also been corrected.

NOTE: If you have a problem with Award #210 a replacement disk is available.

NOTE: A special disk is available to owners of Gemini or Star Micronics who are experiencing problems.

UPCOMING REVISION: We hope to release version 23641 by year end to correct known problems with Print-It! serial interface cards and some models of Grappler+ parallel and Grappler+ serial interface cards. Solutions for these problems are still being developed.

AWARD MAKER PLUS-IBM: Version 23715, released November, 1987. Award styles 11 and 12 have been corrected, as well as printing routines for certain Okidata printers.

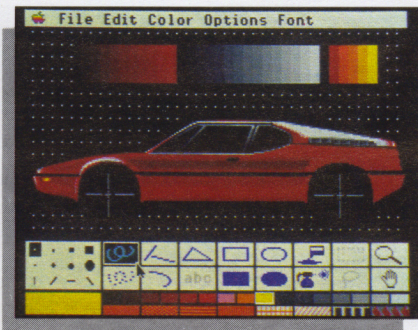

NOTE: A special disk is available to owners of the IBM Color Graphics Printer (or compatible) who are experiencing problems.

*"We're thrilled with **816/Paint**. It has all the tools of contemporary paint programs, plus the ability to work in standard resolution."*

Michelle McBride
Senior Graphic Artist -
Broderbund Software

*"I must tell you that '**816/Paint**' is fantastic! My four year old loves it and every day we play with it and learn something more."*

Mona Fair
Portage, Michigan

Illustrate, draw, paint, doodle.
It's never been easier nor the results more spectacular.

Teachers, educators and artists . . .

Take your Apple II to its limit.

816/Paint is the first graphics program that works with all Apple Hi-Res graphics modes, including the 4096 color Super Hi-Res mode on the IIGs.

Whether it's illustrations for video slides, clip art for desktop publishing, color composites for layout-design, or just some creative fun, *816/Paint* gives you the tools you need: 12 brushes, freehand, lines, air-brush, text and geometric shapes. The marquee and lasso can be used to select portions of a picture to copy, cut, paste, move or paint with. You may also stretch and shrink the selected image. The french curve tool automatically plots a smooth curve through any number of points you designate on the screen.

Cycle thru color palettes for pseudo-animation, or adjust the current one to suit your needs. Eight separate palettes operate at the same time, and you can create color patterns and spreads that cover several of the palettes.

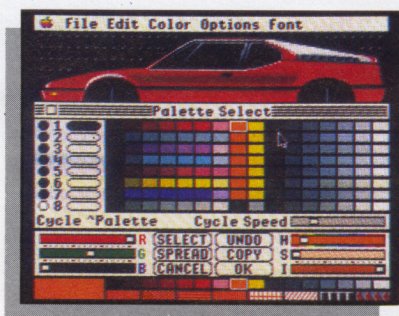

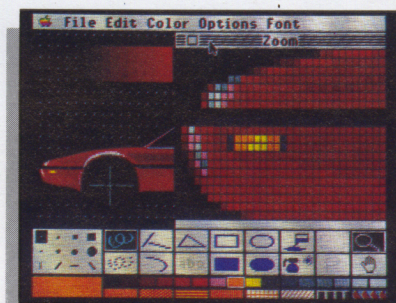

816/Paint™

**The first graphics program
for the IIGs that makes
all the Apples shine!**

"The other paint programs on the market were adopted to the IIGs from the Macintosh and Amiga. 816/Paint is the only one designed to make full use of the Apple IIGs and it's unique capabilities."
Michael Darooge, Author

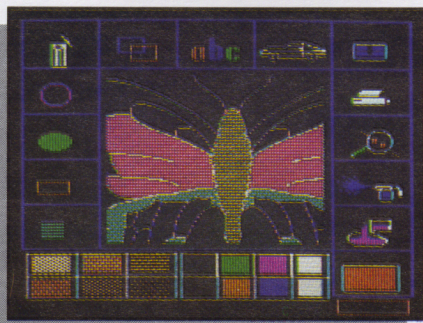

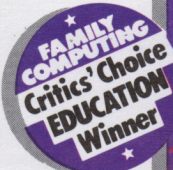

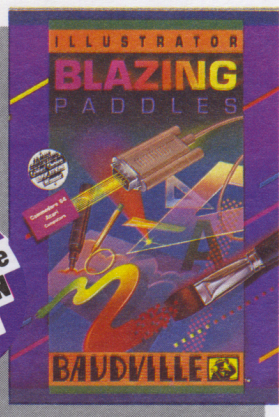

816/Paint includes:

- 2 ProDos disks: a 3 1/2" 800K disk for the Apple IIGS, and a 5 1/4" disk for Apple IIe and IIc machines.
- Capability to read and write to DOS 3.3 for compatability with existing Apple II graphics.
- An easy-to-use icon menu that works the same in all graphics modes.
- Minimum distraction. **The entire screen is visible when you're painting.** Menus appear only when you need them.
- A 4096 color palette in the Super Hi-Res mode.
- Flexibility. Any object can be scaled, rotated, stretched or used as a paintbrush.
- Support for all of the Apple II Hi-Res color graphics modes.

***'Blazing Paddles'** is the best piece of educational software around. The students work on all kinds of things (we have hundreds of pieces of software), but the piece of software they use most is Blazing Paddles."*

Elnora Chambers
Beijing, China

Blazing Paddles

An award winning paint program for all ages! The all-in-one illustrator.

It's hard to believe. But it's true. Blazing Paddles is used from pre-school to college. It's one of those rare programs that's so versatile because it can do so much with so little effort.

Color mixing to create over 200 textured hues, painting with a variety of brush strokes, airbrush-ing, ovals, lines and rectangles. Zoom allows pixel editing while viewing the results at full scale. Text fonts and pre-drawn shapes are included and may be added at any time. A printer dump for most dot matrix printers is included.

So versatile that young children are able to use it like a coloring book, yet sophisticated enough for a computer artist to use. Perfect for home, business, education and the arts. The possibilities are endless!

DREAM ZONE

Dream Zone

Tonight your dream will be unlike any other. A mad scientist's elixir has turned your dream world into reality. And you have become a prisoner in your dream. Escape...or you'll never wake to another sunrise.

To escape the Dream Zone, you will need to draw on your logic, imagination, persistence, and sense of humor. The clues are subtle, perhaps strange, but sufficient. And challenging as this adventure game is, state of the art design will keep the experts tested and the neophytes moving forward.

Forward to encounter Sushi the Oriental Rat, to evade Bonzo the Bouncer, and to outsmart the Informer Pig. Remember, no creature's too strange. Anything can happen in Dream Zone. Magic, misleading riddles, even nightmare beasts, a castle floating in the clouds, an ancient oriental palace. Be prepared to endure the bumbling bureaucrats at the Department of Information and the confusion of the local Carnival. Be prepared for the dream adventure of your lifetime.

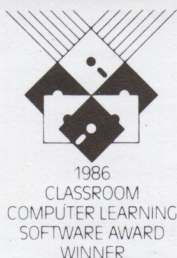

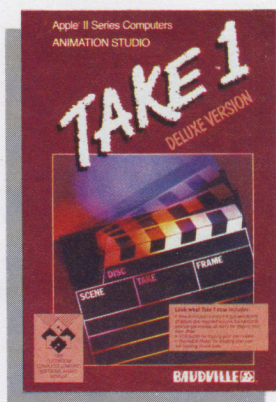

Travel your dreamscape to hundreds of exotic locales on two 800K disks. Converse with multitudes of people (and things) by typing plain English commands, or clicking objects and action icons using the Apple® IIgs mouse.

- Save games for later play.
- Panoramic view of surroundings.
- Color-coded text.
- Fast direction commands.
- Heads Up info displays.

"Take 1 and Programmer's Toolkit are exemplary pieces of software. I really appreciate the programming tips in the Toolkit manual.

My compliments to the designers of these programs, I will certainly recommend them to friends and colleagues."

J. A. Comeau

Take 1 Deluxe

Create. Animate.

Make your own computer movies.

You see computer-animated graphics and video effects everywhere: in movies like "Star Wars," on "MTV" and "The NFL Today." It's one of the most exciting developments in our electronic age. Now with Take 1 Deluxe Version, you can create some video wizardry of your own... without expensive equipment or advanced programming skills.

Take 1 Deluxe Version is a video animation studio for your Apple II series computer. With it, you can create original animated scenes complete with backgrounds and special effects. Show them on your VCR, or make your own movies.

Take 1 Deluxe Version is recommended for age 10 and up, and includes FREE Animation Library "Actors & Actions."

5 1/4" disk only.		

Take 1 Programmer's Toolkit

SuperCharge BASIC programs with High Powered Graphics and Animation!

Put the power of Take 1 graphics and animation in your own programs. The Toolkit is designed to be easy enough for beginners, yet flexible and powerful enough for the most serious programming applications. Programs are designed graphically, so you see how graphics, animations and Hi-Res text will appear before you write a line of code.

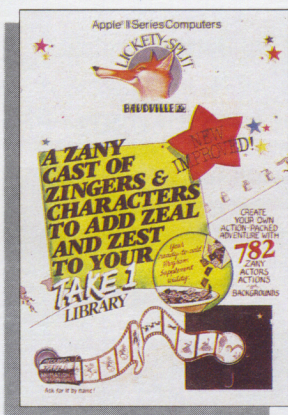

Programming is easier with the Toolkit because all of the graphics and animation are accessed directly from Toolkit BASIC ampersand commands.

Recommended for age 12 and up.

NOTE: Many of the Hacker Jack programs are written with the Toolkit, and are an excellent example of how good a BASIC program can be when the right tools are used. Toolkit owners have access to Hacker Jack code. It's a great way to learn how to use the Toolkit.

Dear Sirs:

RE: Note of Appreciation For Helpful Employee

It seems so rare these days to find someone to help when you have a problem. It is even more rare that someone cares enough to stay with you until the problem is solved. I had such an experience Monday (November 9th) with your employee, Faye.

Early Monday morning I drove 40 miles to a computer store to purchase "Award Maker Plus." I had read about this terrific package in Apple II+. I right out went to buy the program and bring it home and begin to fish. I soon became disturbed, however, when I could not get the program to work on my printer (Prowriter). After several phone calls to the store where I purchased the software, I decided to call Baudville directly. That is when I met Faye.

The moment Faye answered the phone in her cheery voice, I felt I was in capable hands. She literally walked me through on computer telling me how to take it apart so I could interface it. She literally walked me through on computer telling me how to take it apart so I could interface it. She literally walked me through on computer telling me how to take it apart so I could interface it. She literally walked me through on computer telling me how to take it apart so I could interface it.

I have never had such a gratifying experience with a company before, and I felt me should know how unique one of your employees is. I truly feel that Baudville will take care of my needs- whatever they might be. I also feel very confident about your company. When looking for software in the future, I will search for Baudville's name.

Thank you for caring.

A grateful consumer,

Sharon K. Hydron
Sharon K. Hydron

P.S. I would hope that you will share my good words with Faye. She deserves a "pat on the back."

Note of Appreciation For Helpful Employee

It seems so rare these days to find someone to help when you have a problem. It is even more rare that someone cares enough to stay with you until the problem is solved. I had such an experience Monday (November 9th) with your employee, Faye.

Early Monday morning I drove 40 miles to a computer store to purchase "Award Maker Plus." I had read about this terrific package in Apple II+. I could not wait to buy the program and bring it home and begin my fun. I soon became disturbed, however, when I could not get the program to work on my printer (Prowriter). After several phone calls to the store where I purchased the software, I decided to call Baudville directly. That is when I met Faye.

The moment Faye answered the phone in her cheery voice, I felt I was in capable hands. She literally walked me through my computer telling me how to take it apart so I could

identify my interfacing. Once we determined the interfacing I should select from the list of options, we thought we were "home free." That was not the case, though, because as we learned, Prowriter needed some changes made to the dip switch located deep inside the printer. Ever confident Faye directed me to the dip switch and instructed me how to make the necessary changes. She then stayed on the line until the program successfully ran.

I have never had such a gratifying experience with a company before, and felt you should know how unique one of your employees is. I truly feel Baudville will take care of my needs- whatever they might be. I also feel very confident about your company. When looking for software in the future, I will search for Baudville's name.
